Hunebed
modular couch

Hunebed is a modular seating solution, where the user can manipulate the assembly by adding stones to cleverly located pivot points, and rotating stones with 360 degree freedom of motion. Empty pivot points in an assembly can be used for electrification solutions such as an USB charging point, side table, lamp, or mains power socket.

Material
High quality upholstery fabric, foam, wood, steel.

Sizes
See following pages for available elements and accesories.

Remark
Organic modularity with 360 degrees of freedom.

Option
Custom colors and other fabrics available upon request.

Packaging quantity
Sold individually.
